THE IDEA OF THE THINK TANK

Entrepreneurs often have too little time, competence and/or resources to reflect deeply and think creatively about medium- and long-term issues.

To offer support in this regard, various institutes, universities and regions are networking to pool expertise and know-how.

This platform is yours to be used for the creation of independent, innovative and workable ideas.

We invite you to take advantage of our offer.

PROMOTING INNOVATION

VNL is one of eight **National Thematic Networks (NTN)** recognised by the CTI. The NTN represent topics which are of relevance to the Swiss national economy and show high potential for innovation.

CTI is the Swiss federal innovation promotion agency. It aims to generate greater cooperation by fostering cooperation between business and science.

Each year CTI funds hundreds of projects carried out by enterprises in collaboration with universities.
