

VNL-Working Group:

Procurement Digital Value

Collaborative and predictive Procurement Tools & Services

Objectives: Release the Procurement Digital Value (tools & services) to enable industry competitiveness

Our vision is to design for SMEs and larger companies in Switzerland an innovative solution in Procurement B2B compared to existing services and tools.

What it is about?

How to leverage up-to-date Procurement in order to maintain a high-level competitiveness across the Swiss Industry? (goods and services)

How often do you meet?

- Group meetings: 4 times a year
- Conference calls: 6-8 times a year on average
- Ad-hoc meetings: per request

Which topics are discussed?

- Procurement SaaS, Procurement cloud solutions
- Procurement Digitalisation and Change Management
- Future proof of Procurement
- Procurement Platform B2B / Buying Centres
- Procurement Outsourcing
- Supplier Relationships Management (SRM)
- New Technologies applied to Procurement (smart contracts, Artificial Intelligence, Blockchain, etc.)

How and who initiated it - background?

Vincent Faramaz is Senior Scientist at Geneva School of Business Administration and Partner at Costbrokers SA (an independent Swiss consulting firm). Vincent will be the main leader of this working group.

Participation fee: Free for VNL members

Working group lead: Vincent Faramaz, HEG (Genève)
Collaborateur Scientifique Procurement

Target Group

- SMEs Leaders and larger companies Executives in Switzerland having the project to modernise and optimise their Procurement processes.

Purpose

- Give clarity to SMEs about Procurement Digitalisation
- Welcome enterprises to take part to a Procurement Transformation project.

Who are we

Geneva School of Business Administration and Costbrokers SA are part of the WG.

What do we want to achieve

- Design and develop a Swiss made Procurement Platform with the support of Innosuisse.

Who are we looking for

- Managing Director(s)
- Finance Director(s)
- Procurement Director(s)

How can you benefit

- Understand Procurement Digitalisation (context, challenges) before moving towards appropriate solutions.
- Participate with procurement experts to the development of future generation of procurement processes/platforms.
